Applying our deep market sector insights and collective design, consultancy, engineering, project and management services we work in partnership with our clients to deliver exceptional and sustainable outcomes throughout the lifecycle of their natural and built assets. We are 27,000 people active in over 70 countries that generate more than €3.4 billion in revenues. We support UN-Habitat with knowledge and expertise to improve the quality of life in rapidly growing cities around the world. www.arcadis.com.

Roads & Bridges Design Engineer (Iasi)

Transportation system and public utilities are essential for the economic vitality of our communities, the conservation of fuel and other natural resources and the comfort and safety of the people. In the same time, it must allow people and goods to move quickly, conveniently and reliably around communities.

Scope of this role

You will be part of **Roads & Drainage** discipline in Arcadis Iasi office, where a team of experienced Engineers and CAD Technicians are developing and ensuring the highest quality for projects ranging from concept phase design to as-built phase plans.

Main Responsibilities

- Involvement in all design process from concept phase to as built
- Offering technical support and solutions
- 3D modelling and BIM processes

Requirements

- At least Bachelor Degree (CFDP , CCIA or Hydrotechnical Engineering)
- 3 to 5 years of proven professional experience in roads & bridges/tunnels
- Solid technical knowledge
- Good command of English language
- Technical and quality focus
- Great interpersonal skills (team player, eager to learn, proactive)
- Professional approach to time, costs, and deadlines

What do we offer

- Arcadis is a company where people have different ages and levels of experience. You will fit in for sure!
- Arcadis offers flexible working hours for students or employees with families;
- We are extremely focused on your Health & Safety. You will benefit of a great medical package;
- You will have the chance to be a part of international projects at a very large scale;
- Specialized training is provided through our training programs, both in our office in Iasi or other ARCADIS European location;
- You will be a part of an international team and have access to new software solutions;
- We are offering benefits and growth opportunities according to a clear defined career path.

Information / Application

The list of job duties is not exhaustive and may be revised from time to time, based on our business needs. So there are no boundaries to where your career path can take you in Arcadis. We can tailor your path according to your skills and knowledge.
